

Aggressive Aircraft Insurance

We're fairly new in the aviation insurance market. Not too long ago, some experts in the business told us that the industry didn't need any new players, that customer service was terrific and that we were just too Aggressive.

Somehow, though, common sense told us that the aircraft owners of the country would disagree. We just couldn't believe that consumers liked what we saw – slow quoting and policy issuance, a cumbersome renewal process, inconsistent pricing and a requirement for the customer to finance their premiums in order to pay them on installments. We were Aggressive enough to push ahead with a new vision.

Here are some of the fundamentals of our program.

- Aggressive offers its products through qualified insurance producers across the country. You can talk to experienced, independent agents who can offer you a number of choices and good advice.
- We issue quotes instantly. No waiting days or weeks for a price. Our technology even helps our agents complete the application!
- We issue policies in real time. If you're pleased with our quote, we can bind coverage immediately.
- We offer a variety of payment options. Instead of pushing you over to a finance company, we offer a variety of installment payments.
- Our monthly payment plan consists of 12 even payments to help you with your household budgeting. Installment charges are only \$5 each.
- Accept a variety of payment methods. We direct bill our policyholders who may opt to pay by check, Electronic Funds Transfer (EFT), Recurring EFT or Credit Card. We can even accept cash payments through our ISOpay subsidiary at nearly 10,000 locations throughout the country.
- Aggressive wants to keep you as our customer. Our renewal process is automatic. We don't make you complete forms to tell us things that we already know. You can update your make and model hours on line or by email. No paper chasing.
- We're financially solid. Coverage is written on the New York Marine And General Insurance Company (NYMAGIC) which is rated "A" by A.M. Best and Company and has been a major aviation and marine carrier since 1964.

About Aggressive

Aggressive Insurance is a privately held Insurance Services Organization located in Irving, TX. The program is underwritten by an admitted carrier, New York Marine and General Insurance Company (NYMAGIC) which is rated A (Excellent) by A.M. Best and Company. NYMAGIC has aviation and marine experience dating back more than 40 years.

In addition to an experienced Underwriting, Claims, Billing and Service staff, the Aggressive program is supported by an Aviation Council consisting of highly experienced pilots, engineering and reinsurance specialists.
